University of Maryland, Baltimore

University of Maryland, Baltimore County

The University of Maryland, Baltimore (UMB) is the state's only health, law, and human services university and features six nationally ranked professional schools—medicine, law, dentistry, pharmacy, nursing, and social work—and the interdisciplinary Graduate School. UMB is a leading academic health center, combining cutting-edge biomedical research and exceptional clinical care. The university attracted a record-setting \$687.7 million in grants and contracts in Fiscal Year 2020 and its faculty are among the nation's most productive researchers. The University of Maryland BioPark, Baltimore's biggest biotechnology cluster, fuels the commercialization of new drugs, diagnostics, and devices, giving more than 1,000 researchers and entrepreneurs space to create and collaborate.

Through its Community Engagement Center and programs such as CURE Scholars, UMB provides its West Baltimore neighbors with access to health care, employment support, and more.

Together with the University of Maryland Medical Center and affiliated physician practices, UMB generates nearly 18,000 jobs and \$7 billion in annual economic activity.

The Center for Vaccine Development and Global Health and the Institute of Human Virology are leading the way in the fight against infectious diseases worldwide.

UMBC's newest facilities—the Interdisciplinary Life Sciences Building, Performing Arts and Humanities Building, and UMBC Event Center—were built with sustainability in mind. One is already LEED Gold certified.

UMBC is among 45 doctoral universities in the United States that combine

University of Maryland Center for Environmental Science

The University of Maryland Center for Environmental Science (UMCES) is a leading research and educational institution working to understand and manage the world's resources. Through its network of four regional laboratories—the Appalachian Laboratory in Frostburg, the Chesapeake Biological Laboratory in Solomons, the Horn Point Laboratory

UMCES' scientists provide unbiased research to inform public policy and key leadership in the Chesapeake Bay restoration effort.

UMCES works across disciplines in diverse, global settings, seeking solutions that address environmental challenges and improve people's lives.

UMCES students work side-by-side with faculty from day one and go on to careers in the public and private sectors, research, and environmental advocacy.

USM Regional Higher Education Centers

USM's three regional centers are the result of a visionary partnership between USM and campus leaders, elected officials, and business professionals. These are not "satellite" campuses of a single university, but rather conveniently and strategically located sites where multiple universities deliver their most in-demand undergraduate, graduate, professional, and certificate programs. Students at USM regional centers receive their degree from the university in which they enroll, and they benefit from the same curricula, courses, and professors as students pursuing the same program on the university's main campus.

The Universities at Shady Grove

The Universities at Shady Grove (USG) offers approximately 80 undergraduate and graduate degree programs from nine Maryland public universities on one convenient campus in Montgomery County. USG helps prepare students for rewarding careers in the region's most high-demand fields such as accounting, biotechnology, cybersecurity, hospitality, nursing, social work, and many more.

USM Leadership

Board of Regents

A 21-member Board of Regents, including two students, governs the University System of Maryland. Appointed by the governor, president of the Maryland Senate, and the speaker of the Maryland House of Delegates, the regents oversee the system's academic, administrative, and financial operations; formulate policy; and appoint the USM chancellor and the presidents of the system's 12 institutions. With their experience in many fields—including education, business, service, and law—regents volunteer their expertise and time to help the university system meet the diverse needs of its students and the state.
