SUMMARY

15.5%

\$1,818,662,202.77

Major sources of support for activities at the USM institutions come from extramural sources, including grants and contracts. The faculty and staff of USM institutions obtain funding for research, education, and public service activities from many sources. This report shows how many proposals were generated, how many awards were received, and the total amount of funding received from external sources for each institution and the USM overall.

In FY 2023, when accounting for funding received by USM institutions from sources other than another USM institution, the System received a total of \_\_\_\_\_ in extramural funding, a increase from the FY 2022 total of \$1,573,438,515.81. UMB and UMCP garnered the largest extramural funding totals among System institutions. BSU, FSU, SU, UBalt, UMB, UMBC, UMCP, and UMES obtained higher levels of extramural funding than in FY 2022.

Table 1 shows how much income each institution generated in the past two years from grants and contracts from the federal government, Maryland state agencies, non-profit foundations, corporations, and other sources, such as non-governmental organizations. Table 1 also shows the number of proposals submitted to each type of funding source and the number of grants awarded. Awards are counted in the year they are received. It should also be noted that in this report, the number of awards represents not only new awards but also amendments to existing awards that provide additional funding not previously accounted for. Institutions that receive a high percentage of awards funded in increments will have a higher number of awards than propoUeon r0(e12 Tf1 0 0F-34(fund)-1ce71 12 Tf1ur (UM)-10(B,)]8 g10(i)-9(ti)on)-9( r0(e
